NOTICE OF PROPOSED CHANGES TO OCCUPATIONAL EXPOSURE LIMITS OF 101 SUBSTANCES

Notice is hereby given of proposed changes to the Occupational Exposure Limits of the 101 substances listed in the attached Table. Columns B to D of the Table list the current limits that are included in the Regulation respecting Control of Exposure to Biological or Chemical Agents, O. Reg. 654/86, and in certain designated substance regulations made under the *Occupational Health and Safety Act*, R.S.O. 1990, c. O. 1. The proposed new limits for these substances are listed in Columns E to G of the Table.

In the background provided in the Notice of Intent to Review Specific Occupational Exposure Limits, published in *The Ontario Gazette* on October 26, 1991, I stated that the Joint Steering Committee on Hazardous Substances in the Workplace was established by the Minister of Labour to develop and review regulations designed to control worker exposure to hazardous substances, under the *Occupational Health and Safety Act*. The work of the Joint Steering Committee involves achieving consensus on matters such as: determining priorities for substances to be regulated; developing a process for updating the Regulation respecting Control of Exposure to Biological or Chemical Agents (O. Reg. 654/86); and examining new approaches to the regulation of toxic substances.

The Occupational Exposure Limits Task Force of the Joint Steering Committee, consisting of labour and management representatives, is conducting the Interim Process for Reviewing and Revising Occupational Exposure Limits. The substances to be included in the Interim Process were selected following a review of exposure limits in five jurisdictions which follow a comprehensive process for the setting of exposure limits based on labour–management consultation. The five jurisdictions are the United Kingdom, Germany, Sweden, Norway and the Netherlands. The regulated limits from these five jurisdictions are being reviewed and the supporting scientific information and criteria documents for the lowest limits are being collected. A total of 235 substances will eventually be covered under the Interim Process, as I announced on October 26, 1991. Substances not covered under this notice will be dealt with in future notices.

Based on the recommendations of the Task Force conveyed to me by the Joint Steering Committee, I am proposing the new limits listed in Columns E, F and G of the attached Table, which are the lowest values found in one or more of the five jurisdictions. Information on the relevant documentation for the proposed limit and information on the other limits from the five jurisdictions for the substances listed in the Table is available from the Ministry, on request.

An essential part of this process involves soliciting public input to the Task Force on the proposed recommendations. This process encourages submission of comment on the socio–economic impact in Ontario and also scientific and technical data and studies not considered in the criteria documentation but having a direct bearing on the proposed limit. Therefore, written submissions are invited on any or all of the proposed limits. It is expected that valid proposed limits would be endorsed by the Joint Task Force unless submissions received in the public review process demonstrate significant adverse economic impact.

To demonstrate economic impact, a submission should describe:

1. The operations or processes which give rise to the exposures of concern;
2. Current exposure levels of the substance(s) under review in particular operations of concern (and information about whether the exposure levels are estimated or have been measured by air sampling);
3. The decrease in exposure which would be required to bring exposures into compliance with the proposed lower limit;
4. Changes in equipment or operations necessary to achieve and maintain compliance with the lower limit;
5. Costs of such changes;
6. Information on the impact of such costs relative to the financial status of the operation, company, and/or industry as a whole.

To demonstrate that a proposed limit is not reasonably practicable to achieve technically, a submission should describe:

1. The operations or processes which give rise to the exposures of concern;
2. Current exposure levels of the substance(s) under review in particular operations of concern (and information about whether the exposure levels are estimated or have been measured by air sampling);
3. The decrease in exposure which would be required to achieve and maintain compliance with the proposed lower limit;
4. A clear explanation of the conditions or circumstances which make it technically unfeasible to achieve compliance with the proposed lower limit.

In considering the technical and economic aspects of achieving compliance with these proposed occupational exposure limits, respondents should be aware that where typical exposure levels in the workplace may vary from day to day, it may be necessary to maintain typical exposures at levels lower than the stated occupational exposure limits in order to ensure compliance. The Task Force will also consider whether the jurisdiction has a skin notation for each substance and the evidence supporting the skin notation. Comments on the scientific evidence for a skin notation and also scientific data and studies not considered in the criteria documentation are invited.

Submissions should be sent to:

The Joint Steering Committee Secretariat
Regulation Development Unit
Health and Safety Policy Branch
Ministry of Labour
400 University Avenue, 9th Floor
Toronto, Ontario
M7A 1T7

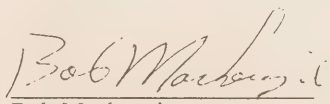

The deadlines for submissions are:

* Group 1 – October 30, 1992
* Group 2 – January 29, 1993
* Group 3 – April 30, 1993

(For Groups see Attachment.)

Submissions will be made available for public examination. Requests for the confidential treatment of information will be considered; such requests should be made prior to submission of the confidential information. After consideration of public input, the Task Force would prepare for the Joint Steering Committee a report on the rationale and response to the public comments for recommended amendments to the occupational exposure limits, and this report would be published.

For further information, please contact Dr. Barry Lubek, Coordinator, Joint Steering Committee Secretariat, Ministry of Labour, Tel: (416) 326-7888; Fax: (416) 326-7889.

Notice of a Temporary Exemption to Rent Control

Rent Control Act, 1992

Form 3

Name of Prospective Tenant		
Street Address of Exempt Unit		Unit No.
City	Province	Postal Code

Dear Prospective Tenant:

Ontario has a rent control law. The law is called the *Rent Control Act, 1992*. Under this law, rental units in new residential buildings or complexes can be exempt from certain parts of the rent control law for five years from the date that the first unit in the new building or complex was rented. As your landlord, I believe that your unit is covered by this exemption until _____ .
(insert date)

However, during this exemption, certain parts of the law still apply to your unit. Section 3, subsection (7), of the *Rent Control Act, 1992* says that I must tell you that sections 6, 7, 8, 103, 107, 108, and 109 still apply to your unit. Below, the Ministry of Housing has provided important information about these sections of the law.

Important Information About This Notice

1. Landlords must give this Notice to you before making a tenancy agreement. If not, your unit is not exempt and the entire *Rent Control Act, 1992* will apply to your unit.

2. Landlords can only increase your rent if 12 months have passed since the date of the last rent increase. If a unit is being rented for the first time, landlords cannot increase the rent in the first twelve months.

3. If your unit is exempt, your landlord can raise the rent by any amount.

4. Landlords must give you written notice of any rent increase at least 90 days before the date the proposed increase takes effect.

5. If you receive a notice for a rent increase and you do not write to the landlord to say that you are moving out of your unit, you are considered to have accepted the rent increase.

6. During the time that the building is exempt, the landlord does not have to file a list of rents for the building with the Ministry of Housing. However, landlords still must file certain other information with the Rent Registry in Ontario and must keep this information accurate and up-to-date. You can get a copy of this information by contacting the Rent Control Office in your area. You can find the telephone number in the blue pages of your telephone book under "Government of Ontario -- Housing."

PART I
REGIONAL MUNICIPALITIES

2.—(1) In this Part,

"annual sum required for regional purposes" means the amount required in 1992 by a regional municipality for general regional

"equivalent assessment" means the sum of,

"special levy" means an amount apportioned among and levied upon two or more area municipalities by a regional municipality for library, sewage, transit or day care purposes on the basis of equalized assessment where the amount is not included in the annual sum required for regional purposes;

"special regional area" means an area comprised of those area municipalities among which a special levy is to be apportioned in 1992.

(2) For the purposes of this Part, the discounted equalized assessment of a regional municipality is the total of the discounted equalized assessments of all area municipalities within the regional municipality.

(3) With respect to each area municipality in The Regional Municipality of Ottawa-Carleton, for the purpose of calculating equivalent assessment, the estimated valuations set out in Column 2 of Schedule 3 shall be substituted for the valuations contained on the last returned assessment roll for which payments in lieu of taxes are payable from the Crown in right of Canada.

(4) The estimated valuations set out in Column 2 of Schedule 3 and the apportionments for all area municipalities within The Regional Municipality of Ottawa-Carleton shall be deemed to be final, unless by resolution of The Regional Municipality of Ottawa-Carleton, notice is received on or before the 31st day of December, 1994 by the Ministry of Revenue and the Ministry of Municipal Affairs, that the valuations determined by the Crown in right of Canada for 1992 for which payments in lieu of taxes are payable from the Crown in right of Canada have been finalized for all area municipalities.

(5) If notice is received by the Ministry of Revenue and the Ministry of Municipal Affairs under subsection (4), the valuations determined by the Crown in right of Canada shall be substituted for the estimated valuations set out in Column 2 of Schedule 3 and the apportionments for all area municipalities within the regional municipality shall be redetermined accordingly. O. Reg. 430/92, s. 2.

3. In 1992, the Ministry of Revenue shall determine,

(a) the discounted equalized assessment of each area municipality; and

(b) the discounted equalized assessment of each regional municipality. O. Reg. 430/92, s. 3.

4. The Ministry of Revenue shall, in respect of each regional municipality, determine the percentage share of apportionment, correct to three decimal places, for each area municipality within the regional municipality by dividing the discounted equalized assessment of each area municipality as determined under clause 3 (a) by the discounted equalized assessment of the regional municipality as determined under clause 3 (b) and multiplying the result by 100. O. Reg. 430/92, s. 4.

5. The discounted equalized assessment determined under clause 3 (a) and the respective percentage share of apportionment determined for each area municipality under section 4 shall be substituted for the weighted equalized assessment or equalized assessment in the notice of the weighted equalized assessment or equalized assessment of each area municipality that is sent by the Ministry of Revenue to a regional municipality and to the area municipalities under an Act establishing a regional municipality. O. Reg. 430/92, s. 5.

6. For 1992, the apportionment of an annual sum required for regional purposes among the area municipalities within a regional municipality shall be made on the basis of the percentages determined for each area municipality under section 4. O. Reg. 430/92, s. 6.

7.—(1) Sections 1, 2, 3, 4, 6 and 8 apply, with necessary modifications, to a special levy in 1992 and to a special regional area as if a special levy was the annual sum required for regional purposes of the regional municipality and the special regional area was the regional municipality.

(2) Despite any other provision of this Regulation, where the Act authorizing a special levy authorizes the special levy to be apportioned among area municipalities according to the assessment for a specified part of the area municipality and where a regional municipality proposes to use the assessment for only part of an area municipality in apportioning a special levy under that Act, the assessment for that part of the area municipality shall, for the purposes of subsection (1), be deemed to be the assessment for the whole area municipality. O. Reg. 430/92, s. 7.

8. If the equalization factor, the residential and farm assessment, the commercial assessment or the equivalent assessment, as determined under this Part, of one or more area municipalities is altered by the Ontario Municipal Board upon an appeal, the treasurer of the regional municipality shall determine what portion of the annual sum required for regional purposes would have been apportioned to each of the area municipalities within the regional municipality in 1992 under this Regulation. O. Reg. 430/92, s. 8.

9. This Part does not apply to The Regional Municipality of Peel, The Regional Municipality of Sudbury, The Municipality of Metropolitan Toronto, The Regional Municipality of Haldimand-Norfolk, The Regional Municipality of Waterloo or The District Municipality of Muskoka. O. Reg. 430/92, s. 9.

PART II
COUNTIES

10.—(1) In this Part,

"annual sum required for county purposes" means the amount required in 1992 by a county municipality for general county purposes including the sums required for any board, commission or other body but excluding sums required for school purposes;

"apportionment" means an apportionment of the annual sum required for county purposes among all supporting municipalities within a county under subsection 366 (6) or 374 (2) of the *Municipal Act*;

"average municipal commercial mill rate" means, in respect of a supporting municipality, the rate obtained by dividing the total taxes levied for all purposes, other than for school purposes and other than under sections 33 and 34 of the *Assessment Act*, on the commercial assessment for 1990 by the total commercial assessment for 1990 multiplied by 1,000;

"special county area" means an area comprised of those supporting municipalities among which a special levy is to be apportioned in 1992;

"special levy" means an amount apportioned among and levied upon two or more supporting municipalities by a county for county road or library purposes on the basis of equalized assessment where that amount is not included in the annual sum required for county purposes.

(2) In this Part, the discounted equalized assessment of the county is the total of the discounted equalized assessments of all supporting municipalities within the county. O. Reg. 430/92, s. 10.

11. The clerk of each supporting municipality shall provide to the clerk of the county in which the municipality is located, a written statement indicating, with respect to the supporting municipality,

(a) its prescribed equalization factor;

(b) its residential and farm assessment;

(c) its commercial assessment;

(d) its total payments in lieu of taxes for 1990, as defined in subsection 366 (1) of the *Municipal Act*;

(e) its portion of payments in lieu of taxes as determined under clause (d) not allocated for school purposes; and

(f) its equivalent assessment for apportionment purposes, obtained by dividing the portion of payments in lieu of taxes for 1990 as determined under clause (e) by the average municipal commercial mill rate and multiplying the result by 1,000. O. Reg. 430/92, s. 11.

12. In 1992, the treasurer of each county shall determine,

(a) the discounted equalized assessment of each supporting municipality in the county; and

(b) the discounted equalized assessment of the county. O. Reg. 430/92, s. 12.

13. The treasurer of each county shall determine the percentage share of apportionment, correct to three decimal places, for each supporting municipality within the county by dividing the discounted equalized assessment of each supporting municipality as determined under clause 12 (a) by the discounted equalized assessment of the county as determined under clause 12 (b) and multiplying the result by 100. O. Reg. 430/92, s. 13.

14. Sections 10 to 13 and 15 and 16 apply, with necessary modifications, to a special levy of a county in 1992 and to the special county area as if the special levy was a levy of the county under subsection 366 (6) of the *Municipal Act* and the special county area was the county. O. Reg. 430/92, s. 14.

15. Unless an amending by-law is passed under subsection 366 (9) of the Municipal Act, a by-law passed by the council of a county under subsection 366 (6) of that Act shall apportion the annual sum required for county purposes on the basis of the percentage determined for each supporting municipality under section 13 and the amount that each supporting municipality is required to provide is the amount so determined. O. Reg. 430/92, s. 15.

16. If the council of the county finds a determination made under section 12, 13 or 14 to be incorrect, the council on or before the 31st day of December, 1992 shall amend the percentage shares of apportionment set out in the by-law passed under subsection 366 (6) of the *Municipal Act* and shall notify the Ministry of Municipal Affairs of the amendment. O. Reg. 430/92, s. 16.

17. If a by-law of a county passed under subsection 366 (6) of the *Municipal Act* is amended by a by-law passed under subsection 366 (9) of that Act, the amending by-law shall specify the amount to be provided by each supporting municipality within the county in 1992. O. Reg. 430/92, s. 17.

18. The treasurer of the county shall determine the responsibility of each supporting municipality in accordance with sections 12 to 15 and the council of the county shall, by amending the by-law passed under subsection 366 (6) of the *Municipal Act*, adjust accordingly the amounts to be provided by each supporting municipality if,

(a) the Ontario Municipal Board, upon an appeal under subsection 366 (11) of the *Municipal Act*, determines that the equalization factor, the residential and farm assessment, the commercial assessment or the equivalent assessment, as determined under this Part, or one or more supporting municipalities within a county should be altered;

(b) an adjustment of percentage shares is made by the Ontario Municipal Board under subsection 366 (18) of that Act; or

(c) the clerk of a county receives written notification from the clerk of a supporting municipality indicating a revision to the statement supplied in accordance with section 11. O. Reg. 430/92, s. 18.

19. Despite sections 10 to 18, for the purposes of calculating the discounted equalized assessment in 1992 for the Township of Mersea or for municipalities where a proclamation has been made for the return of a new assessment roll under section 63 of the *Assessment Act*, the equalized equivalent assessment shall be the amount set out in Column 2 of Schedule 4. O. Reg. 430/92, s. 19.

20. This Part does not apply to the County of Brant, the County of Huron, the County of Kent, the County of Renfrew, the County of Prince Edward, the County of Dufferin, the County of Lambton or the County of Lanark. O. Reg. 430/92, s. 20.

PART III
DISTRICT BOARDS

21.—(1) In this Part,

"apportionment" means an apportionment made by a district board among all the municipalities within the district board area of the total amount required for the purposes of the district board under the Act establishing the district board;

"average municipal commercial mill rate" means, in respect of a supporting municipality, the rate obtained by dividing the total taxes levied for all purposes, other than for school purposes and under sections 33 and 34 of the *Assessment Act*, on the commercial assessment in 1991 by the total commercial assessment for 1991, multiplied by 1,000;

"average overall commercial mill rate" means, in respect of a supporting municipality, the rate obtained by dividing the total taxes levied for all purposes, other than under sections 33 and 34 of the *Assessment Act*, on the commercial assessment of public school supporters for

1991 by the total commercial assessment for 1991, multiplied by 1,000;

"equivalent assessment" means the sum of,

(a) the valuations contained on the last returned assessment roll for which payments in lieu of taxes on real property and business assessment are payable but,

(i) reduced, where payment is predicated on the residential and farm mill rate, by multiplying that assessment by the appropriate discount factor for purposes of determining a discounted assessment for that supporting municipality, and

(ii) if a municipality is entitled to receive a payment from Ontario Hydro under subsection 52 (6) of the *Power Corporation Act*, substituting the amount determined by dividing the 1991 payment in lieu of taxes on real property and business assessment by the average overall commercial mill rate and multiplying the result by 1,000 for the valuations payable from Ontario Hydro,

(b) the amount determined by dividing the sum of,

(i) the 1991 entitlements under section 157 of the Act, and

(ii) the difference, if greater than zero, determined by subtracting the assessed value of all provincial parks and wilderness areas in a municipality multiplied by the average commercial mill rate and divided by 1,000, from the amount the municipality was entitled to receive in 1983 under section 4 of the *Provincial Parks Municipal Tax Assistance Act* as that provision read on the 31st day of December, 1983,

by the average commercial mill rate and multiplying the result by 1,000, and

(c) the amount determined by dividing the 1991 entitlements under section 159 of the Act by the average overall commercial mill rate and multiplying the result by 1,000;

"municipality" means,

(a) a supporting municipality, except an area municipality in The Regional Municipality of Sudbury, and

(b) The Regional Municipality of Sudbury;

"municipality within a district board area" means a municipality that is located within a district board area and against which an apportionment is to be made in 1992 by the district board.

(2) In this Part, the discounted equalized assessment of a district board is the total of the discounted equalized assessments of all municipalities within the district board area.

(3) Despite subsection (2), for the purposes of this Part, the discounted equalized assessment of The Regional Municipality of Sudbury is the sum of the discounted equalized assessments of the supporting municipalities within the regional municipality. O. Reg. 430/92, s. 21.

22. In 1992, the Ministry of Revenue shall determine in respect of each district board,

(a) the discounted equalized assessment of each municipality within the district board area; and

(b) the discounted equalized assessment of each district board. O. Reg. 430/92, s. 22.

23. The Ministry of Revenue shall, in respect of every district board, determine the percentage share of apportionment, correct to three decimal places, for each municipality within the district board area by dividing the discounted equalized assessment of each municipality as determined under clause 22 (a) by the discounted equalized assessment of the district board as determined under clause 22 (b) and multiplying the result by 100. O. Reg. 430/92, s. 23.

24. The discounted equalized assessment determined under clause 22 (a) and the respective percentage share of apportionment determined for each municipality under section 23 shall be substituted for the weighted equalized assessment or equalized assessment in the notice of the weighted equalized assessment or equalized assessment of each municipality that is sent by the Ministry of Revenue to a district board under the Act establishing the district board. O. Reg. 430/92, s. 24.

25.—(1) For 1992, the apportionment of the total sum required for district board purposes among the municipalities within a district board area shall be made on the basis of the percentages determined for each municipality under section 23.

(2) The Ministry of Revenue shall submit to each district board, a statement showing the information mentioned in clauses 22 (a) and (b), and the calculations which produced that information.

(3) Upon receipt of the statement referred to in subsection (2), the district board shall promptly forward a copy of the statement to the clerk of each municipality within the district board area. O. Reg. 430/92, s. 25.

26. Each district board shall forward to the Ministry of Municipal Affairs a statement showing the total amount apportioned for 1992, as modified by subsection 25 (1), among the municipalities within the district board area under the Act establishing the district board. O. Reg. 430/92, s. 26.

27.—(1) If the equalization factor, the residential and farm assessment, the commercial assessment or the equivalent assessment, as determined under this Part, of one or more municipalities within a district board area is altered by the Ontario Municipal Board upon an appeal under the Act establishing the district board, notice of the alteration shall be given promptly by the clerk of the municipality to the Ministry of Revenue.

(2) Upon being satisfied that all appeals have been determined and that all notices required under subsection (1) have been received, the Ministry of Revenue shall, using the altered equalization factor, residential and farm assessment, commercial assessment or equivalent assessment, as the case may be,

(a) make the determinations required under sections 21, 22 and 23; and

(b) revise the notice and information to be supplied under sections 24 and 25.

(3) When a district board receives a notice revised by the Ministry of Revenue under clause (2) (b), the district board shall amend the apportionment of the total sum required for district board purposes among the municipalities within the district board area on the basis of the adjusted equalized assessments as determined. O. Reg. 430/92, s. 27.

28. Despite sections 21 to 27, for the purpose of calculating the discounted equalized assessment in 1992 of municipalities where a proclamation has been made for the return of a new assessment roll under section 63 of the *Assessment Act*, the equalized equivalent assessment shall be the amount set out in Column 2 of Schedule 4. O. Reg. 430/92, s. 28.

PART IV
CONSERVATION AUTHORITIES

29.—(1) In this Part,

"apportionment" means an apportionment made by a conservation authority among the municipalities within the conservation authority area of an amount required for the purposes of the conservation authority under the *Conservation Authorities Act*;

"municipality" means a regional municipality, supporting municipality, city or separated town;

"municipality within a conservation authority area" means a municipality that is located wholly or partly within a conservation authority area and against which an apportionment is to be made in 1992 by the conservation authority.

(2) In this Part, the discounted equalized assessment of a conservation authority is the total of the discounted equalized assessments of all municipalities within a conservation authority area.

(3) Where only part of a municipality against which an apportionment is made by a conservation authority in 1992 is located within the conservation authority area, the discounted equalized assessment for that part of the municipality shall be deemed to be the discounted equalized assessment for the whole municipality for the purposes of this Part.

(4) For the purposes of this Part, the discounted equalized assessment of a regional municipality is the sum of the discounted equalized assessments of the municipalities within the regional municipality. O. Reg. 430/92, s. 29.

30. In 1992, the Ministry of Natural Resources shall determine in respect of each conservation authority,

(a) the discounted equalized assessment of each municipality within the conservation authority area; and

(b) the discounted equalized assessment of each conservation authority. O. Reg. 430/92, s. 30.

31. The Ministry of Natural Resources shall, in respect of each conservation authority, determine the 1992 percentage share of apportionment, correct to four decimal places, for each municipality within the conservation authority area by dividing the discounted equalized assessment of each municipality, as determined under clause 30 (a), by the discounted equalized assessment of the conservation authority, as determined under clause 30 (b) and multiplying the result by 100. O. Reg. 430/92, s. 31.

32. The discounted equalized assessment determined under section 30 and the respective 1992 percentage share of apportionment determined for each municipality under section 31 shall be substituted for the equalized assessment in the notice of the equalized assessment that is provided to the conservation authority by the Ministry of Natural Resources under the Act establishing a conservation authority. O. Reg. 430/92, s. 32.

33.—(1) For 1992, the apportionment of the conservation authority levies among the municipalities within a conservation authority area shall be made on the basis of the percentages determined for each municipality under section 31.

(2) The Ministry of Natural Resources shall submit to each conservation authority to which subsection (1) applies a statement showing the information mentioned in clauses 30 (a) and (b) and the calculations which produced that information.

(3) A conservation authority shall, upon receipt of the statement referred to in subsection (2), promptly forward a copy of the statement to the clerk of each municipality within the conservation authority area. O. Reg. 430/92, s. 33.

34. Each conservation authority shall forward to the Ministry of Natural Resources a statement showing the total amount apportioned for 1992, as modified by subsection 33 (1), among the municipalities within the conservation authority area under the Act establishing the conservation authority. O. Reg. 430/92, s. 34.

35.—(1) Where the equalization factor, the residential and farm assessment or the commercial assessment of one or more municipalities within a conservation authority area is altered by the Ontario Municipal Board upon an appeal under the Act establishing the conservation authority, notice of the alteration shall be given promptly by the clerk of the municipality to the Ministry of Natural Resources.

(2) Upon being satisfied that all appeals have been determined and that all notices under subsection (1) have been received, the Ministry of Natural Resources shall, using the altered equalization factor, the residential and farm assessment or the commercial assessment, as the case may be,

(a) make the determinations required under sections 30 and 31; and

(b) revise the notice and information to be supplied under sections 32 and 33.

(3) When a conservation authority receives a notice revised by the Ministry of Natural Resources under clause (2) (b), the conservation authority shall amend the apportionment of the total sum required for conservation authority purposes among the municipalities within the conservation authority area on the basis of the adjusted discounted equalized assessments. O. Reg. 430/92, s. 35.

PART V
GENERAL

36.—(1) Where any Act requires the Ministry of Revenue or the Ministry of Municipal Affairs to equalize assessment rolls or parts of an assessment roll that relate to two or more defined areas within a supporting municipality, the Ministry of Municipal Affairs shall, in equalizing each assessment roll or each part of it for purposes of municipal taxation in 1992, use the same equalization factor as was used to equalize the assessment roll or part of it for purposes of municipal taxation in 1991.

(2) Subsection (1) does not apply to a supporting municipality where there has been a different assessment generally of real property within that supporting municipality under section 58 of the *Assessment Act*. O. Reg. 430/92, s. 36.

37.—(1) If the Ministry of Municipal Affairs, Ministry of Revenue or Ministry of Natural Resources, as the case may be, determines in respect of a regional municipality, county, district board or conservation authority that any calculation made under this Regulation was made incorrectly or was based on incorrect information, the Ministry of Municipal Affairs may correct the calculation and may determine the amount that would have been payable to the supporting municipalities within the regional municipality, county, district board area or conservation authority area if the calculation had been correct and the grants payable under Part I or II may be adjusted accordingly.

(2) If a determination is made under subsection (1) in respect of an apportionment and levy of a regional municipality, county, district board or conservation authority, that apportionment and levy shall be adjusted in accordance with the corrected calculations and any overpayment or underpayment by a supporting municipality shall be corrected in the same manner as it is corrected following an appeal of a county apportionment by-law or of a discounted equalized assessment being used for apportionment purposes, as applicable. O. Reg. 430/92, s. 37.

38. If an adjustment is made by the Ministry of Municipal Affairs or Ministry of Revenue in the grants payable by the Minister of Municipal Affairs to a supporting municipality under Part I or II and if the Ministry of Municipal Affairs determines as a result of the adjustment that an overpayment has been made to the municipality, it shall notify the municipality of the amount of the overpayment and the amount of the overpayment shall be paid promptly by the municipality to the Ministry of Municipal Affairs. O. Reg. 430/92, s. 38.

39. This Regulation applies to apportionments and levies made on or after the 1st day of January, 1992. O. Reg. 430/92, s. 39.

40. Ontario Regulation 272/91 is revoked.

Include particulars of all fees, charges and expenses payable by securityholders, including amounts payable on:

(a) the acquisition of securities;

(b) the exchange/transfer of securities with/to a related fund;
and

(c) the redemption of securities.

(c) Instruct the reader to refer to the financial statements for details as to the amount of fees, charges and expenses, if any, which have been charged to the Fund.

(d) Set out in tabular form in the prospectus or by way of note to the financial statements, a record of the management expense ratio for each of the last five completed financial years of the Fund with a brief description of the method of calculating the management expense ratio.

INSTRUCTIONS:

1. If the basis of calculating the management or incentive fees or the other fees, charges or expenses that are charged to the Fund is changed or is proposed to be changed and if such change would have had an effect on the management expense ratio for the last completed financial year of the Fund had the change been in effect throughout that year, the effect of such change should be disclosed.

2. If any financial period referred to in Item 9 (d) is less than twelve months, the management expense ratio should be shown on an annualized basis, with reference to the period covered and to the fact that the management expense ratio for the period has been annualized.

3. The management expense ratio of a Fund for any financial year shall be calculated by dividing the aggregate of all fees, charges and expenses paid or payable by the Fund during or in respect of the financial year in question by the amount of the average net asset value of the Fund for the financial year in question, and multiplying the quotient by 100. For the purpose of making this calculation:

   (a) the expression "the average net asset value of the Fund for the financial year" means the result obtained by:

      (i) adding together the amounts determined to be the net asset value of the Fund as at the close of business of the Fund on each day during the financial year in question on which the net asset value of the Fund has been determined in the manner from time to time prescribed in the constating documents of the Fund; and

      (ii) dividing the amount resulting from the addition provided for in clause (i) by the number of days during the financial year in question on which the net asset value of the Fund has been determined;

   (b) the expression "fees, charges and expenses" means fees, charges and expenses paid or payable by the Fund, except,

      (i) commissions and brokerage fees on the purchase and sale of portfolio securities;

      (ii) interest charges (if any); and

      (iii) taxes of all kinds to which the Fund is subject.

4. If the Fund invests in another mutual fund, the management expense ratio shall be calculated on the basis of those assets of the Fund on which a management fee is charged.

5. The financial statements should set out in appropriate detail the amounts of the management fees and of all other fees, charges and expenses, if any, that have been charged to the Fund during the period covered by the financial statements.

6. The fees, charges and other expenses, if any, that are charged directly to all securityholders generally or to securityholders who participate in a special arrangement and the basis of calculation of the same are to be excluded in determining the management expense ratio of the Fund.

INSTRUCTIONS:

2. If the securities of the Fund are or will be a qualified investment within the meaning of the *Income Tax Act* (Canada) for retirement savings plans, deferred profit sharing plans or other savings plans registered under the *Income Tax Act* (Canada) and if the Fund is or will be recognized as a registered investment within the meaning of that Act, provide the relevant information and state:

   (i) the effect of the qualification;

   (ii) the limitations, if any, imposed by that Act on the portion of the plans which may be invested in the securities of the Fund without subjecting the plans to taxes or penalties under that Act; and

   (iii) whether the securities of the Fund will or will not be qualified investments for the plans.

3. Specifically disclose the business and activities the Fund is permitted to undertake that would not be permissible for an

ordinary mutual fund, and state any restrictions on capitalization, investment and other business activities of the Fund under the *Labour Sponsored Venture Capital Corporation Act, 1992* and any investment policies and practices the Fund has adopted in pursuing its objectives, with particular reference in each case to the following types of activities:

(i) the issuing of securities other than those contemplated by the Fund's prospectus;

(ii) the borrowing of money;

(iii) the making of loans, whether secured or unsecured;

(v) the investment in more than 10 per cent of the securities of any one issuer;

(vi) the investment in securities for the purpose of exercising control or management;

(vii) the investment in securities of investment companies or other mutual funds;

5. For the purpose of Instruction 3 (ix), if the Fund invests in securities whose resale is restricted, describe how those securities are valued for the purpose of computing the net asset value of the Fund.

ITEM 11 — Dividends or Distributions

Instruct the reader to refer to the Fund's financial statements for information as to the amount of dividends or other distributions per security paid by the Fund (including income allocated to securityholders by way of dividend reinvestment or otherwise) during each of the last five completed financial years of the Fund, and include such information by way of note to the Fund's financial statements.

INSTRUCTIONS:

1. Dividends and other distributions should be set out on a per security basis, shown separately for each class of securities in respect of each of the financial years. Appropriate adjustments should be made to reflect changes in capitalization during the period.

2. If dividends or other distributions have been paid by way of capitalizing the same (i.e. increasing the value of the securities held by securityholders of record), the amount per security of the dividends or other distributions so capitalized shall be referred to by way of note to the Fund's financial statements. As well, any statement in the Fund's prospectus or financial statements as to the amount of the net asset value per security as at any date shall be presented in such a manner so as to indicate clearly the portion of the net asset value per security that is represented by dividends or other distributions that were capitalized during the year or period in question and the portion of the net asset value per security that is represented by the changes that occurred in the market value of the assets and liabilities of the Fund during the year or period in question. The intention of this provision is to avoid any misunderstanding or double counting that may otherwise occur in evaluating the performance of the Fund during the year or period in question.

5. Information shall be furnished in answer to this Item with respect to transactions not excluded above that involve remuneration, directly or indirectly, to any of the specified persons or companies for services in any capacity, unless the interest of the person or company arises solely from the beneficial ownership, direct or indirect, of less than 10 per cent of any class of voting securities of another company furnishing the services to the Fund or its subsidiaries.

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

EXEMPTION—MINISTRY OF TRANSPORTATION—MTO-62

Having received a request from the Ministry of Transportation that an undertaking, namely:

> the acquisition and leasing of three kilometres of abandoned rail right-of-way property in the City of St. Thomas,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Transportation that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Crown may be damaged due to an increase in the purchase price of the lands that could arise if there is a delay in purchasing this property.

B. The public will be damaged by the loss of an opportunity to restore rail service if the property is not acquired immediately by the Crown and thereby protected from other potential development uses.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The undertaking is unlikely to have any significant adverse effects on the environment, as this undertaking involves the reuse of an existing rail corridor. The interference which would be caused by the full application of the *Environmental Assessment Act*, therefore, would be undue.

B. The undertaking will encourage the development of passenger and freight rail service, thus creating immediate economic development as a result of this energy efficient mode of transportation.

This exemption order is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.

3. This exemption order shall expire,

   (a) five years from the date of approval of this order if acquisition has not yet commenced; or

(b) at the request of the Minister of Transportation, on such later date as approved by the Minister of the Environment. O. Reg. 492/92.

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR 11/10

Having received a request from the Minister of Natural Resources that an undertaking, namely:

> Timber Management by the Ministry of Natural Resources (MNR) on Crown lands presently included within forest management units and associated tree nurseries,

be exempt from the application of the Act for an additional period pursuant to section 29; and

Having been advised by the MNR that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Crown and the public will be damaged by the loss of benefits anticipated to result from the timber management plans which are scheduled to proceed within the period of the exemption.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. MNR carries out public consultation during the preparation of timber management plans for each forest management unit.

B. The undertaking is an ongoing activity of MNR and is an integral part of the economy of the Province.

C. MNR has submitted the Class Environmental Assessment for Timber Management on Crown Lands in Ontario to the Minister of the Environment for approval. A public hearing on this matter, before the Environmental Assessment Board, is currently underway and a decision is expected in 1993.

This exemption is subject to the following terms and conditions:

Public Involvement

1. (1) There shall be a minimum of four opportunities for involvement of interested and affected parties and the general public in the preparation of a timber management plan. Those opportunities shall occur at the following stages of the timber management planning process:

Stage One: at the outset to advise on the beginning of the planning process and to solicit information;

Stage Two: during the development of proposals, prior to the preparation of a draft timber management plan;

Stage Three: upon completion of MNR's internal review of the draft timber management plan;

Stage Four: upon MNR approval of the timber management plan.

(2) Formal public notice of each of the public involvement opportunities shall be issued in the form of direct written notice to interested and affected individuals, government ministries and agencies and a general public notice in the local media. Each public notice shall contain a statement that there is an opportunity at any time during the timber management planning process for interested persons to make a request to the Minister of the Environment that specific proposed timber management activities require individual environmental assessment treatment under the *Environmental Assessment Act*.

(3) Public notices at Stages Two and Three of the timber management planning process will advise of opportunities available to request an MNR review of outstanding issues at that stage of planning, as described in Condition 3 of this Order.

(4) An Information Centre shall be held at Stage Two of the public consultation process. Public notice of this and any other Information Centre which may be held shall be issued at least thirty days in advance.

(5) A period of at least sixty days shall be provided for public review and comment on the draft timber management plan, with the exception of those plans for which a planning schedule has been set and which are to be scheduled for approval in 1993, in which case a thirty-day public review opportunity shall apply.

(6) The final public notice shall provide a period of at least thirty days for the public to inspect the MNR approved timber management plan and shall serve as a final opportunity for interested persons to make a request to the Minister of the Environment that an individual environmental assessment be required.

(7) Public notice and consultation opportunities shall also be provided for minor and major amendments to timber management plans.

Local Citizens Committee

2. Local citizens committees shall participate in the preparation of ten timber management plans, prior to the expiry of this exemption order. The committees will be comprised of local citizens representing a range and balance of interests. The committees will be an integral part of the timber management planning process and will serve to promote the integration of interests affected by timber management activities. Not later than August 31, 1992, MNR shall provide the Director of the Environmental Assessment Branch (EA Branch) of the Ministry of the Environment with a list of the ten timber management plans that MNR proposes to be dealt with under this condition. An evaluation of the effectiveness of such committees will be carried out by MNR and a report thereon will be submitted to the Director of the EA Branch no later than December 31, 1994.

Issue Resolution

3. MNR shall provide opportunities for interested persons to request an MNR review of outstanding issues during timber management planning. During the preparation of timber management plans, opportunities to request reviews will be provided as part of the public consultation process, at Stage Two with requests made to the District Manager of MNR and at Stage Three with requests made to the Regional Director of MNR. Similar opportunities for a review of outstanding issues shall also be provided for minor and major amendments to timber management plans.

Access Road Planning

4. As part of the process of timber management planning, a reasonable range of practical alternative corridors shall be considered and analyzed for primary access roads for the twenty-year plan period and for secondary access roads for the five-year plan term. Strategies which address road use and management shall be considered in the analysis of each alternative corridor. In areas of concern, an environmental analysis of alternative road locations shall be conducted for primary and secondary access roads, and any necessary conditions on the locations, construction and use management of tertiary access roads shall be determined.

Requests for Individual Environmental Assessment

5. During the preparation of timber management plans and major amendments to approved plans, any person may request the Minister of the Environment to require an individual environmental assessment of specified proposed timber management activities. Requests for individual environmental assessment may be made at any time during the timber management planning process, but not later than thirty days following issuance of the final public notice. If a request is made while planning is ongoing, timber management planning may proceed while the Minister of the Environment considers the request.

6. In the decision on a request for an individual environmental assessment, the Minister of the Environment, by written notice to the Minister of Natural Resources and to the person making the request, shall direct that,

   (a) an individual environmental assessment be prepared for specific timber management activities, in which event this Order shall not apply to those activities; or

   (b) an individual environmental assessment is not required; or

   (c) an individual environmental assessment is not required, but specific terms and conditions will be imposed on carrying out the timber management activities which are the subject of the request for an individual environmental assessment.

7. Where the Minister of the Environment requires an individual environmental assessment, the specific timber management activities and the areas of the forest management unit which are affected shall be specified. In such circumstances, timber management planning may continue and partial or conditional approval of timber management activities and operations may be granted by MNR in respect of activities and operations in areas unaffected by the requirement to conduct an individual environmental assessment, with the concurrence of the Director of the EA Branch.

8. If there is an outstanding request for an environmental assessment at the end of the thirty-day period for public inspection of an MNR approved timber management plan or major amendment,

   (a) the Minister of the Environment, in order to consider a request for an individual environmental assessment, may, after consultation with the Minister of Natural Resources and by written notice to the said Minister, require MNR to defer or impose restrictions on the implementation of certain or all timber management activities within a specified area during the period of up to ninety days immediately following the completion of the period of public inspection of the timber management plan or major amendment; and

   (b) where the implementation of timber management activities is scheduled to commence during the period of time specified by the Minister of the Environment under Condition 8 (a), partial or conditional approval of activities and operations may be granted by MNR, with the concurrence of the Director of the Environmental Assessment Branch, to permit operations that do not involve or affect the outstanding request for an individual environmental assessment to proceed.

Planning and Public Notice Provisions for Aerial Application of Pesticides

9. (1) During the planning of insect pest management programs which involve the aerial application of insecticides, two formal public consultation opportunities shall be provided. Those opportunities shall occur at the following stages of the planning process:

   Stage One: during the development of project proposals;

   Stage Two: upon MNR approval of the insect pest management program and specific project descriptions for aerial application of insecticides.

   (2) In addition to those formal public consultation opportunities, any person may make a request to the Minister of the Environment for an individual environmental assessment of specific proposed insect pest management activities. The Minister of the Environment may determine the requirement for an individual environmental assessment as described in Conditions 6 and 7.

10. (1) The planning of renewal and tending programs which involve the aerial application of herbicides shall be undertaken as part of the timber management planning process, with provision of public consultation opportunities in accordance with Condition 1.

   (2) Each project involving the aerial application of a pesticide which is undertaken for timber management purposes shall be the subject of a project description, a project plan, and a permit as outlined in subsections 67 (2) and (3) of Regulation 751 of Revised Regulations of Ontario, 1980 under the *Pesticides Act*.

11. Public notification of aerial pesticide projects shall include publication of public notices in the local media at least thirty days, and again at least seven days, prior to the anticipated date of application and shall display information outlined in section 59p of Regulation 751 of Revised Regulations of Ontario, 1980. All spray blocks on Crown lands shall be posted not more than seven days before operations commence at all reasonable points of access. Signs shall remain in place for at least thirty days after the completion of the project, and shall display information as outlined in section 59n of Regulation 751.

Submissions to the Environmental Assessment Branch, Ministry of the Environment

12. (1) For each timber management plan prepared pursuant to this Order, MNR shall provide the following information to the Director of the EA Branch, for inclusion in the Public Record,

   (a) the name of the Forest Management Unit;

(b) a map of the Forest Management Unit;

(c) the duration of the plan;

13. By January 31 of each year, MNR shall provide the Director of the EA Branch with a list of all timber management plans currently under preparation or scheduled to commence preparation during the term of this Order, with the scheduled approval date of each plan specified.

Other

14. This Order shall remain in effect until a decision on approval is made with respect to the Class Environmental Assessment for Timber Management on Crown Lands in Ontario.

15. This Order replaces MNR 11/9, Ontario Regulation 2/85, which is hereby revoked. O. Reg. 493/92.

Workers' Compensation Board
Commission des accidents du travail

IN THE MATTER OF Section 95 of the *Workers' Compensation Act* R.S.O. 1990, c. W.11, as amended;

AND IN THE MATTER OF the IDSP Interim Report to the Workers' Compensation Board on Cor Pulmonale

REQUESTS FOR SUBMISSIONS

Section 95 of the *Workers' Compensation Act* provides for the creation of an Industrial Disease Standards Panel (the Panel). It is the function of the Panel to:

(a) investigate possible industrial diseases;

(b) make findings as to whether a probable connection exists between a disease and an industrial process, trade or occupation in Ontario;

(c) create, develop and revise criteria for the evaluation of claims respecting industrial diseases; and,

(d) advise on eligibility rules regarding compensation for claims respecting industrial diseases.

In April 1984, the *Royal Commission on Matters of Health and Safety Arising From the Use of Asbestos in Ontario (the "RCA")* completed and tabled a three volume Report. This Report included a number of recommendations affecting workers' compensation programs.

On March 5, 1987, the Workers' Compensation Board requested the Panel to "develop [such] an eligibility rule [for cor pumonale] to indicate under what circumstances survivors will be come eligible to these benefits" as part of a response to a series of questions regarding some of the recommendtions of the RCA.

The Industrial Disease Standards Panel provided the Workers' Compensation Board with a report dated July 31, 1992, on the adjudicative problems associated with the payment of dependancy benefits for cor pulmonale in workers previously diagnosed with any pneumoconiosis.

Included in this notice are the following:

1. the Panel's letter of transmittal
2. the Interim Report to the Workers' Compensation Board on Cor Pulmonale
3. References

These documents are available on request from the Industrial Disease Standards Panel and can be obtained by contacting the **Industrial Disease Standards Panel, 69 Yonge Street, Suite 1004, Toronto, Ontario M5E 1J3 — (416) 327-4156.**

In accordance with sub-section 95 (12) of the *Workers' Compensation Act*, the Board has published this notice setting forth the nature of the findings of the Panel and hereby requests written comments, briefs and submissions from any interested parties. Comments, briefs and submissions must be filed with the Board within 100 days of the date of this notice.

All comments, briefs and submissions related to this progress report should be sent to **Ms. Linda Angove, Secretary of the Board, Workers' Compensation Board, 2 Bloor Street East, 20th Floor, Toronto, Ontario M4W 3C3.**

Upon the expiry of the 100 day period herein, the Board, pursuant to subsection 95 (13), may accept the findings of the Panel with or without amendments or it may reject the findings.

Notice of the Board's acceptance or rejection, with reasons therefor, will be published in *The Ontario Gazette* in accordance with subsection 95 (15) of the *Workers' Compensation Act*.

Industrial Disease Standards Panel

In 1985 the Ontario legislature established the Industrial Disease Standards Panel (IDSP) to investigate and identify diseases related to work. The Panel is independent of both the Ministry of Labour and the Workers' Compensation Board. At the end of each fiscal year the WCB reimburses the Ministry for the Panel's expenditures.

The Panel's authority flows from section 95 of the *Workers' Compensation Act* and its functions are set out as follows:

(8) (a) to investigate possible industrial diseases;

(b) to make findings as to whether a probable connection exists between a disease and an industrial process, trade or occupation in Ontario;

(c) to create, develop and revise criteria for the evaluation of claims respecting industrial diseases; and

(d) to advise on eligibility rules regarding compensation for claims.

Decisions of the Panel are made by its members who represent labour, management, scientific, medical and community interests. Once the

Panel makes a finding, the WCB is required to publish the Panel's report in the Ontario Gazette and solicit comments from interested parties. After considering the submissions the WCB Board of Directors decide if the Panel's recommendations are to be implemented, amended or rejected.

To assist with its work the Panel has a small staff of researchers, analysts and support people. In addition to its own staff, the Panel relies heavily on the advice of outside experts in science, medicine and law, as well as input from the parties of interest.

Dear Mr. Di Santo:

I am pleased to present you with the "IDSP Report to the Workers' Compensation Board on Cor Pulmonale" in accordance with section 95 (11) of the *Workers' Compensation Act*.

The Issue

It has been a long acknowledged medical opinion that a serious breathing impairment can lead to heart disease. The association is well documented and not disputed. Heart problems affecting the right side of the heart and associated with pulmonary dysfunction are known as cor pulmonale.

For compensation purposes the medical association is not at issue but adjudicatory problems have been identified. Workers who are in receipt of benefits for respiratory illness often develop heart problems. There is a concern that these additional problems may not be adequately addressed by the WCB when awarding benefits to the worker or determining entitlement to dependency benefits.

It is easy to understand that the Board would miss some allowable claims when one considers that one-third of the population ultimately dies of heart disease or stroke. Therefore, when Board adjudicators are confronted with information that indicates that a worker has died of heart disease, it would be reasonable to assume that the death was not a result of the compensable illness and the file should be closed. Even when the possibility of work-related heart disease is identified, it is often not possible to sort out the relationship between heart disease related to work and non-work-related disease. As a consequence, the widows of workers who have suffered from compensable respiratory illness and died of related illness may not receive the benefits to which they are entitled.

The issue, although limited to asbestotics at the time, was raised during the public hearings before The Royal Commission on Asbestos [RCA] in 1980. As a result the Commission in Recommendation 13.9 formally advised the Workers' Compensation Board to devise an eligibility rule for survivors of those workers who suffer from mild or moderate impairment from asbestosis and who die from cor pulmonale(1).

Concerns about adjudicative problems must have also been shared by then Chairman of the WCB, Dr. Robert Elgie, because in a letter dated March 5, 1987, he asked the Panel to "develop such an eligibility rule [for cor pulmonale] to indicate under what circumstances survivors will become eligible to these benefits."

The Panel accepted the referral and incorporated this investigation in its on-going review of the recommendations of RCA. The Panel expanded the scope of the inquiry and chose to look at the adjudicative problems associated with the payment of dependency benefits for all claims for pneumoconiosis, not simply asbestosis.

The Investigatory Process

Since the time of the original referral from the Workers' Compensation Board in March, 1987, the issue of cor pulmonale has arisen indirectly as the Panel has pursued other investigations.

The Panel decided to broaden the previous Agenda item. The broader issue became **"death from cor pulmonale (or other cardiovascular disease) among workers with a prior diagnosis of any pneumoconiosis."**

In 1989 the Panel contemplated commissioning Dr. W. Nichol-son from Mount Sinai Hospital in New York to undertake a review of cause of death data for asbestotics. Eventually this project was abandoned because the data was not available. Inquiries were made and the Ministry of Labour was able to provide the Panel with some statistical information about the incidence of cor pulmonale and pneumoconiosis.

In January of 1992, the Panel wrote to three respirologists, for advice on the disease process.

The Panel reviewed the Workers' Compensation legislation and contacted other Canadian Boards to obtain any policies or guidelines concerning death from cor pulmonale or any other cardiovascular disease among workers with a prior diagnosis of occupationally related chest disease. Responses were received from Alberta, Nova Scotia, Yukon, Newfoundland and Labrador, Saskatchewan, and New Brunswick.

This report will deal with only the problems associated with cor pulmonale. In a further report the Panel will address the adjudicative problems associated with additional respiratory factors that complicate the adjudication of claims for respiratory illnesses.

The Nature of the Condition

The term "cor pulmonale" denotes enlargement of the right ventricle of the heart secondary to pulmonary malfunction(2). Cor pulmonale does not automatically imply **right heart failure**. However, if the pulmonary hypertension that led to the enlarged heart is not relieved, it can be expected that the right ventricle will fail. A more precise definition is preferred by Morgan, who describes it as "heart failure resulting from lung disease and is recognised by **an increase in the right** ventricular and pulmonary artery pressures **in the absence of left** ventricular failure"(3).

One function of the lungs is to exchange gases, specifically oxygen and carbon dioxide. This exchange occurs in the alveoli, or air sacs, and capillaries in the lung. The oxygen from the air breathed diffuses into the blood through the thin alveolar wall and the carbon dioxide in the blood diffuses out. The average adult lung contains some 300 million alveoli supplied with a network of blood vessels so extensive "it is best described as a pool of blood"(4). This network is the densest concentration of blood vessels in the body.

Ordinarily, this enormous reserve allows blood to circulate through healthy lungs so easily that the relatively weak right ventricle of the heart can function without increased blood pressure, even if half the volume of both lungs is removed surgically. "It is an extraordinarily efficient, low resistance system"(2).

However, if this blood vessel supply is sufficiently reduced, increased pressure in the pulmonary artery [pulmonary hypertension] may lead first to over-development of the right heart [which simply has to work harder to get the blood through the lungs] and finally to right heart failure. It is this pulmonary hypertension that leads to cor pulmonale.

Lung disease that can seriously impair normal lung function is usually described as either restrictive or obstructive. Restrictive disease basically refers to a "restriction" on the volume of air in the lung. It involves the alveoli and supporting tissue of the lung as opposed to the airways themselves. Diseases resulting in pulmonary fibrosis, such as asbestosis, would be typical.

Recent texts on occupational health or occupational lung disease clearly acknowledge the association between the pneumoconioses and cor pulmonale as a possible sequelae. "The fibrotic lung lesions frequently calcify and there is a progressive restrictive lung disease leading to cor pulmonale"(6). "Right-sided congestive heart failure may occur as the result of pulmonary hypertension secondary to some form of severe lung disease. Severe asbestosis, silicosis or any severe occupational lung disease may cause right-sided congestive heart failure"(7). "Classic silicosis may progress to conglomerate disease...the terminal stages may be marked by CO_2 retention, chronic anoxia, and the development of cor pulmonale"(4).

Obstructive diseases, on the other hand, reflect an abnormality in flow of the air through the tubes in the lungs. Emphysema and chronic bronchitis are examples. The most common cause of chronic cor pulmonale is chronic obstructive pulmonary disease [COPD](2). These diseases are widespread in the population in general and most commonly associated with long term cigarette smoking(5). Acute reversible episodes of cor pulmonale can occur in COPD patients, usually during acute respiratory infections. As many as half of the patients with severe obstructive lung disease have cor pulmonale.(2)

Some diseases may have both a restrictive and an obstructive pattern. Although the pathological changes ensuing differ, both types, if severe enough can lead to cor pulmonale.

Most diffuse respiratory diseases do not affect the alveolar gas exchange sufficiently to initiate the train of events leading to cor pulmonale. Even patients with extensive silicosis, emphysema, or diffuse fibrosis **usually** fail to develop appreciable pulmonary hypertension or heart enlargement even though symptoms of breathlessness have occurred for years. However, combined obstructive and restrictive lung disease, which frequently occurs in patients with a restrictive disease who smoke cigarettes, has an especially poor prognosis(2).

Evidence for Ongoing Incidence of the Condition

Individual Panel members drew the Panel's attention to a 1973 publication on silicosis in hardrock miners in Ontario(8). The statistics drawn from tabulations of the Ontario Mining Association include, among other figures, the causes of deaths in silicotic miners from 1926 to 1972. Taken from death certificates, the data shows that for most years between 1959 and 1972 more deaths are attributed to right heart failure than to silicosis or tuberculosis.

Information on 12 deaths attributed to chronic interstitial pneumonia among gold miners was tabled at Panel meeting No. 39, September 12, 1990. Panel minutes of that meeting note that "these cases provide evidence linking a death diagnosis of cor pulmonale (or other heart conditions such as chronic myocarditis or myocardial failure) with pulmonary fibrosis." The Panel was unable to determine from the Board if these cases resulted in the awarding of survivors' benefits.

Fernie et al. found evidence of cor pulmonale in 34% of deceased coal miners with progressive massive fibrosis, regardless of smoking status(9).

Most recently, investigators from the Ontario Ministry of Labour and the Ministry of Health examined hospital discharge data and found that cor pulmonale was diagnosed 22 times more frequently than expected among men diagnosed with a pneumoconiosis(10). Although this data is unpublished and yet to be peer reviewed, it nevertheless would seem to reinforce the view that cor pulmonale is likely to develop in those with a prior diagnosis of fibrotic lung disease.

The Adjudication of Cor Pulmonale

The difficulty in the adjudication of these claims has been identified in several provinces. Both British Columbia and Quebec have chosen to introduce legislative presumptions. Alberta has chosen to simply rely on policy initiatives to assist adjudicators. The other provinces contacted did not have any policies on point.

Ontario

The Panel was unable to ascertain the usual procedure employed by the Board to identify potentially compensable deaths due to cor pulmonale. However, three apparent adjudicative processes have been identified:

1. the Board undertakes an investigation of the cause of death when a claim is submitted by a dependent;

2. the Board undertakes an investigation of the cause of death when the permanent disability for respiratory impairment was rated at 40% or higher. This practice, however, does not form part of any written procedure; and

3. the Board presumably closes the file and takes no further action when a worker who was in receipt of a pension of less than 40% dies.

British Columbia

British Columbia currently compensates all deaths due to lung and heart disease (including myocardial infarctions) among workers under the age of 70 receiving pensions for an occupational respiratory disease in accordance with Section 6(11) of the B.C. Act.

Section 6(11) reads as follows:

> (11) Where a deceased worker was, at the time of his death, under the age of 70 years and suffering from an industrial disease of a type that impairs the capacity [or] function of the lungs, and where the death was caused by some ailment or impairment of the lungs or heart of non-traumatic origin, it shall be conclusively presumed that the death resulted from the industrial disease.

Quebec

Section 95 of Quebec's Industrial Accidents and Occupational Diseases Act specifies that a worker who dies while in receipt of an income replacement indemnity for an occupational disease that could cause death is presumed to have died from that disease. This means that dependency benefits are paid.

Alberta

Two policies potentially affect compensation for cor pulmonale. Policy Statement OCC-4 applies where a permanent and compensable respiratory disability co-exists with a disabling, although non-compensable heart disease. It is presumed that the compensable respiratory disability has enhanced the non-compensable heart disease. Under this policy the Board pays a "supplement" which equals 50% of the clinical rating assigned to the disabling respiratory disease.

When death is attributable to the heart disease, entitlement is governed by the Board's cardiac policy, ADJ-36. Under that policy cardiac conditions are compensable when:

(i) there is evidence of occupational exposure to factors or events known or presumed to be associated with heart problems, and

(ii) the time lapse between the occupational exposure and the onset of the cardiac condition is such that a relationship can be established.

The policy classifies the occupational factors related to cardiac conditions as having either specific causal relationships or presumptive causal relationships. It includes cor pulmonale as an example of a specific causal relationship in which heart disease occurs secondarily to occupational lung disease.

In Summary

Three other provinces have provisions awarding dependency benefits for deaths due to cor pulmonale.

The Panel Consideration of the Evidence

As stated previously there is no medical or scientific dispute. Cor pulmonale is a common finding and can be a contributory cause of death among patients suffering from severe pulmonary disease, especially if chronic hypoxemia (low arterial oxygen) is present. Because of this, the present Panel has extended its recommendations to include all compensable respiratory diseases, not just fibrotic disease.

The Panel also recognizes that cor pulmonale is a common finding among sufferers of Chronic Obstructive Pulmonary Disease, which is usually associated with smoking and can also be associated with work exposure. It is entirely possible that a worker could suffer from a work-related respiratory disease and could also be suffering from another non-work-related respiratory disease and the two could together give rise to cor pulmonale.

In many cases the existence of cor pulmonale has not been diagnosed. Even if the disease is diagnosed, there is often little evidence to assist the adjudicator in distingushing between work and non-work-related causes. British Columbia, for example, has decided that the evidentiary problems are not amenable to resolution. Therefore, to ensure that compensation is paid to all potentially entitled dependents, it enacted legislation that irrebutably presumed a relationship between death and work. Quebec followed the same pattern, except that its presumption is rebuttable.

This Panel has chosen to address the deficiencies in evidence by recommending a monitoring system rather than establishing a presumption of work-relatedness. It is the Panel's view that attempts should be made to diagnose the disease during life and compensate appropriately. The Panel also believes that such monitoring could provide adjudicators with evidence to establish the existence of cor pulmonale and to distingush between work and non-work-related disease not only during the life of the worker, but also at death, so that dependency benefits can be justly awarded.

Panel Findings and Recommendations

Finding 1

The Panel finds a probable connection between compensable respiratory disease and the development of cor pulmonale.

Recommendations

1a. The WCB should investigate the possible existence of cor pulmonale during regular bi-annual assessments of workers receiving benefits for respiratory disease.

1b. The WCB should review the entitlement of workers who are receiving benefits for respiratory disease to insure that their entitlement includes payments for the symptoms of cor pulmonale.

2a. The WCB should investigate the causes of death for all workers who during their lifetimes received benefits for a respiratory disease.

2b. The WCB should pay dependency benefits, if the respiratory disease or a consequence of that disease was a significant factor in the cause of the worker's death or was the sole cause of the death.

The Panel realizes that diagnosis of cor pulmonale may be problematic and offers to assist the Board in developing appropriate strategies.

MOTOR VEHICLE TRANSPORT ACT, 1987
LOI DE 1987 SUR LES TRANSPORTS ROUTIERS

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The Applicants have been found to meet the fitness requirements pursuant to Section 8(2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication which satisfies the Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

C = the balance in the fund at the beginning of the fiscal year, and

F = the value, at the beginning of the fiscal year, of a pension of which the annual payment is $1 payable at the beginning of each fiscal year between that date and the 31st day of December of the year in which the purchaser reaches ninety years of age.

(2) The amount of income paid out of the fund during a fiscal year must not be less than "minimum" in the following formula:

$$\text{minimum} = C / H$$

in which,

C = the balance in the fund at the beginning of the fiscal year, and

H = the number of years between the 1st day of January of the year in which the calculation is made and the 31st day of December of the year in which the purchaser reaches ninety years of age.

(3) The following apply with respect to the determination of the amount "F" in subsection (1):

1. The amount "F" must be established at the beginning of each fiscal year of the fund using an interest rate of not more than 6 per cent.

2. For the first fifteen years after the date of the valuation, the value of the pension may be determined by using a percentage that is,

   i. greater than 6 per cent, and

   ii. less than or equal to the percentage obtained on long-term bonds issued by the Government of Canada for the month preceding the date of the valuation, as compiled by Statistics Canada and published in the Bank of Canada Review under identification number B-14013 in the CANSIM system.

(4) For the initial fiscal year of the fund,

(a) the "maximum" in subsection (1) shall be adjusted in proportion to the number of months in that fiscal year divided by 12, with any part of an incompleted month counting as one month; and

(b) the "minimum" in subsection (2) shall be deemed to be zero.

(5) If a part of the fund purchased at the beginning of a fiscal year corresponds to sums transferred directly or indirectly during the same year from another life income fund of the purchaser, the "maximum" in subsection (1) shall be deemed to be zero.

TRANSFERRING ASSETS FROM THE FUND

6.—(1) The purchaser of the life income fund may transfer any or all the assets in it,

(a) to another life income fund;

(b) to purchase an immediate life annuity that meets the requirements of section 19 of the Regulation; or

(c) before the 31st day of December in the year in which the purchaser reaches 71 years of age, to a registered retirement savings plan that meets the requirements of section 18 of the Regulation.

(2) In the arrangement establishing the fund, the financial institution must agree to make such a transfer within thirty days after the purchaser requests it. This does not apply with respect to the transfer of assets held as securities whose term of investment extends beyond the thirty-day period.

(3) If the assets in the life income fund consist of identifiable and transferable securities, the financial institution may transfer the securities with the consent of the purchaser.

PAYMENT OF THE BALANCE IN THE FUND

7.—(1) The purchaser of the fund shall use any assets remaining in the life income fund on the 31st day of December in the year in which he or she reaches eighty years of age to purchase an immediate life annuity that meets the requirements of section 19 of the Regulation.

(2) If the purchaser of the fund does not purchase the life annuity on or before the 31st day of March in the year after the year in which he or she reaches eighty years of age, the financial institution shall issue or arrange for the issuance of a life annuity contract.

(3) For the purposes of the life annuity, the spousal status of the purchaser of the fund is to be determined on the date the annuity is purchased.

(4) Payments under a life annuity are subject to division in accordance with the terms of a domestic contract as defined in Part IV of the *Family Law Act* or the terms of an order made under Part I of that Act.

SURVIVOR'S BENEFITS

8.—(1) If the purchaser of the life income fund is a member or former member of the pension plan and if he or she dies before the balance of the fund is used to purchase the life annuity, the purchaser's spouse or, if there is none, his or her named beneficiary or, if there is none, his or her estate is entitled to receive a benefit equal to the balance in the fund.

(2) A spouse living separate and apart from the purchaser on the date of the purchaser's death is not entitled to receive the balance of the fund.

(3) For the purposes of subsection (1), a person's spousal status is determined on the date of death of the purchaser.

9.—(1) The spouse of the purchaser of the life income fund may

waive survivor's benefits under the fund before the balance of the fund is used to purchase an immediate life annuity.

(2) A waiver of survivor's benefits may be revoked before the balance of the fund is used to purchase an immediate life annuity.

(3) The waiver or revocation is made by giving notice to the financial institution providing the life income fund.

AMENDING THE FUND

10.—(1) In the arrangement establishing the life income fund, the financial institution providing the fund must agree not to amend the arrangement except as provided in this section.

(2) The financial institution must give the purchaser of the fund at least ninety days notice of a proposed amendment, other than an amendment described in subsection (3).

(3) The financial institution must not amend the arrangement if the amendment would result in a reduction in the purchaser's benefits under the arrangement unless,

(a) the financial institution is required by law to make the amendment; and

(b) the purchaser is entitled to transfer the balance in the life income fund under the terms of the arrangement that exist before the amendment is made.

(4) When making an amendment described in subsection (3), the financial institution must,

(a) notify the purchaser of the fund of the nature of the amendment; and

(b) allow the purchaser at least ninety days after the notice is given to transfer all or part of the balance in the fund.

(5) Notices under this section must be sent by registered mail to the purchaser's address as set out in the records of the financial institution.

INFORMATION TO BE PROVIDED BY THE FINANCIAL INSTITUTION

11.—(1) In the arrangement establishing the life income fund, the financial institution must agree to provide the information described in this section to the person indicated.

(2) At the beginning of each fiscal year, the following information must be provided to the purchaser:

1. The sums deposited, the accumulated earnings, the payments made out of the fund and the fees charged against it during the previous fiscal year.
2. The balance in the fund.
3. The minimum amount that must be paid out of the fund to the purchaser during the current fiscal year and each subsequent one.
4. The maximum amount that may be paid out of the fund to the purchaser during the current fiscal year and each subsequent one.

(3) If the balance of the fund is transferred as described in subsection 6 (1), the purchaser must be given the information described in subsection (2) determined as of the date of the transfer.

(4) If the purchaser dies before the balance in the fund is used to purchase an immediate life annuity, the person entitled to receive the balance must be given the information described in subsection (2) determined as of the date of the purchaser's death. O. Reg. 564/92, s. 3.

Rent Control Act, 1992

Form 3

Name of Prospective Tenant		
Street Address of Exempt Unit		Unit No.
City	Province	Postal Code

Dear Prospective Tenant:

Ontario has a rent control law. The law is called the *Rent Control Act, 1992*. Under this law, rental units in new residential buildings or complexes can be exempt from certain parts of the rent control law for five years from the date that the first unit in the new building or complex was first rented. As your landlord, I believe that your unit is covered by this exemption until _____ (insert date) .

However, during this exemption, certain parts of the law still apply to your unit. Section 3, subsection (7), of the *Rent Control Act, 1992* says that I must tell you that sections 6, 7, 8, 103, 107, 108, and 109 still apply to your unit. Below, the Ministry of Housing has provided important information about these sections of the law.

Important Information About This Notice

1. Landlords must give this Notice to you before making a tenancy agreement. If not, your unit is not exempt and the entire *Rent Control Act, 1992* will apply to your unit.

2. Landlords can only increase your rent if 12 months have passed since the date of the last rent increase. If a unit is being rented for the first time, landlords cannot increase the rent in the first twelve months.

3. If your unit is exempt, your landlord can raise the rent by any amount.

4. Landlords must give you written notice of any rent increase at least 90 days before the date the proposed increase takes effect.

5. If you receive a notice for a rent increase and you do not write to the landlord to say that you are moving out of your unit, you are considered to have accepted the rent increase.

6. During the time that the building is exempt, the landlord does not have to file a list of rents for the building with the Ministry of Housing. However, landlords still must file certain other information with the Rent Registry in Ontario and must keep this information accurate and up-to-date. You can get a copy of this information by contacting the Rent Control Office in your area. You can find the telephone number in the blue pages of your telephone book under "Government of Ontario -- Housing."

O. Reg. 570/92, s. 2.

3. Item 2 of Part 2 of Form 7 of the Regulation is amended by striking out "or facilities" in the second line.

Au locataire éventuel,

L'Ontario a une loi sur le contrôle des loyers intitulée *Loi de 1992 sur le contrôle des loyers*. En vertu de cette loi, les logements locatifs d'immeubles ou d'ensembles d'habitation **neufs** peuvent être soustraits à l'application de certaines parties de la loi sur le contrôle des loyers pendant cinq ans à partir de la date à laquelle le premier logement de l'immeuble ou de l'ensemble neuf est loué pour la première fois. En tant que votre locateur, je crois que votre logement est touché par cette exemption jusqu'au _____.
(insérez la date)

Toutefois, certaines parties de la Loi s'appliquent toujours à votre logement pendant que l'exemption est en vigueur. D'après le paragraphe (7) de l'article 3 de la *Loi de 1992 sur le contrôle des loyers*, je dois vous informer que les articles 6, 7, 8, 103, 107, 108 et 109 s'appliquent toujours à votre logement. Renseignements importants concernant le présent avis

1. Le locateur doit vous donner cet avis avant de conclure un bail. S'il ne le fait pas, votre logement n'est pas exempté et l'ensemble de la *Loi de 1992 sur le contrôle des loyers* s'appliquera à votre logement.

2. Le locateur ne peut augmenter votre loyer que si 12 mois se sont écoulés depuis la date de la dernière augmentation de loyer. Dans le cas d'un logement loué pour la première fois, le locateur ne peut augmenter le loyer pendant les douze premiers mois.

3. Si votre logement est exempté, votre locateur peut augmenter le loyer de n'importe quel montant.

4. Le locateur doit vous donner un avis écrit de toute augmentation de loyer au moins 90 jours avant la date à laquelle l'augmentation proposée doit entrer en vigueur.

5. Si vous recevez un avis d'augmentation de loyer et que vous n'écrivez pas au locateur pour lui faire savoir que vous déménagez, vous êtes réputé avoir accepté l'augmentation de loyer.

6. Pendant que l'immeuble est exempté, le locateur n'est pas obligé de déposer une liste des loyers de l'immeuble auprès du ministère du Logement. Toutefois, il doit quand même déclarer certains renseignements auprès du registre des loyers de l'Ontario et il veille à ce que ces renseignements restent exacts et à jour. Vous pouvez obtenir une copie de ces renseignements en communiquant avec le Bureau de contrôle des loyers de votre région. Le numéro de téléphone du Bureau figure dans les pages bleues de l'annuaire téléphonique sous «Gouvernement de l'Ontario -- Logement».

Partie 3 : Renseignements sur la «date du loyer initial»

Cette partie de la déclaration demande des renseignements sur la «date du loyer initial» que vous avez inscrite dans la colonne 3 de la partie 2. 1. Pourquoi avez-vous utilisé comme «date du loyer initial» une date autre que le 1er juillet 1985, le 1er octobre 1990 ou le 10 août 1992? Cochez une des raisons suivantes :

«non loué» -- le logement n'était pas loué à la «date du loyer initial» et vous avez utilisé la première date à laquelle le logement a été loué après la «date du loyer initial»,

«exempté» -- le logement était exempté à la «date du loyer initial» et vous avez utilisé la première date à laquelle la *Loi de 1992 sur le contrôle des loyers* s'est appliquée au logement,

«autre» -- vous ne connaissez pas la «date du loyer initial» ou vous ne savez pas à combien s'élevait le loyer à la «date du loyer initial».
